After a long week from work and other non-work related activities, I managed to get on my first assignment for this week.

I was able to edit and updated my CV. I lost my copy of my Resume as I resort to editing my CV as that's the only available credentials I have today. I did some overview of the topics regarding the track that I've been too.. It looks promising!

I believe this will lead me to what I really want to be in the future.
